

PROJECT FLOW

Date	10-Oct-2022
TeamID	PNT2022TMID21701
Project title	Machine Learning-Based Predictive Analysis for Aircraft Engine
Maximum Marks	

There are four section in the project as mentioned below:

1. Documentation.
2. Foremost,
 - Front-end.
 - Middleware.
 - Back-end.
3. Terminal.
4. IBMCloud.

1.DOCUMENTATION:

This section refers to the documents that describes the working and approaches we are decided to proceed further.

2.FOREMOST:

This section refers to heart of the project starting from collecting the dataset and integrating the model,python flask framework to the IBM cloud.Here,we splitted the section into four categories,as it makes more comprehensive namely frontend,middleware,backend.

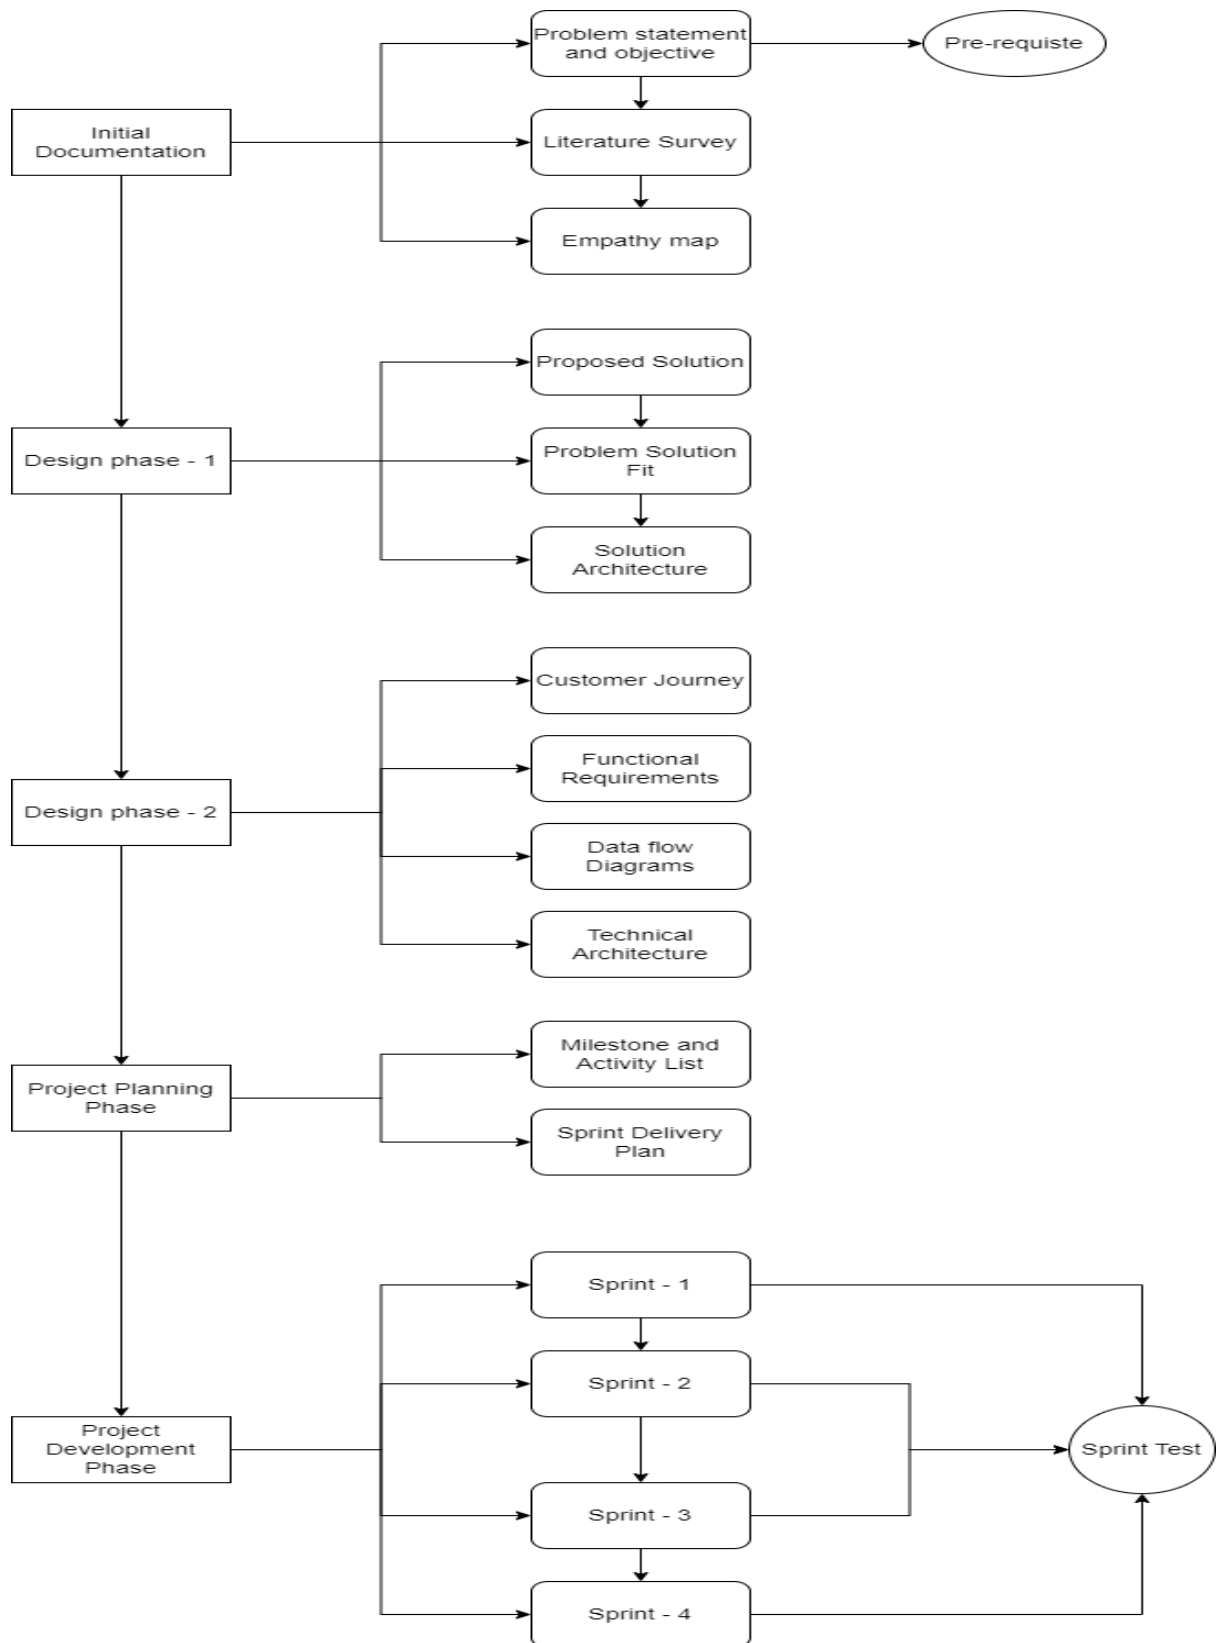

3.TERMINAL:

It deals with the conclusion of the project,rendering the output page and making a way for user to enter the inputs,displaying the outputs.Proper navigation of “hrefs” in HTML pages.

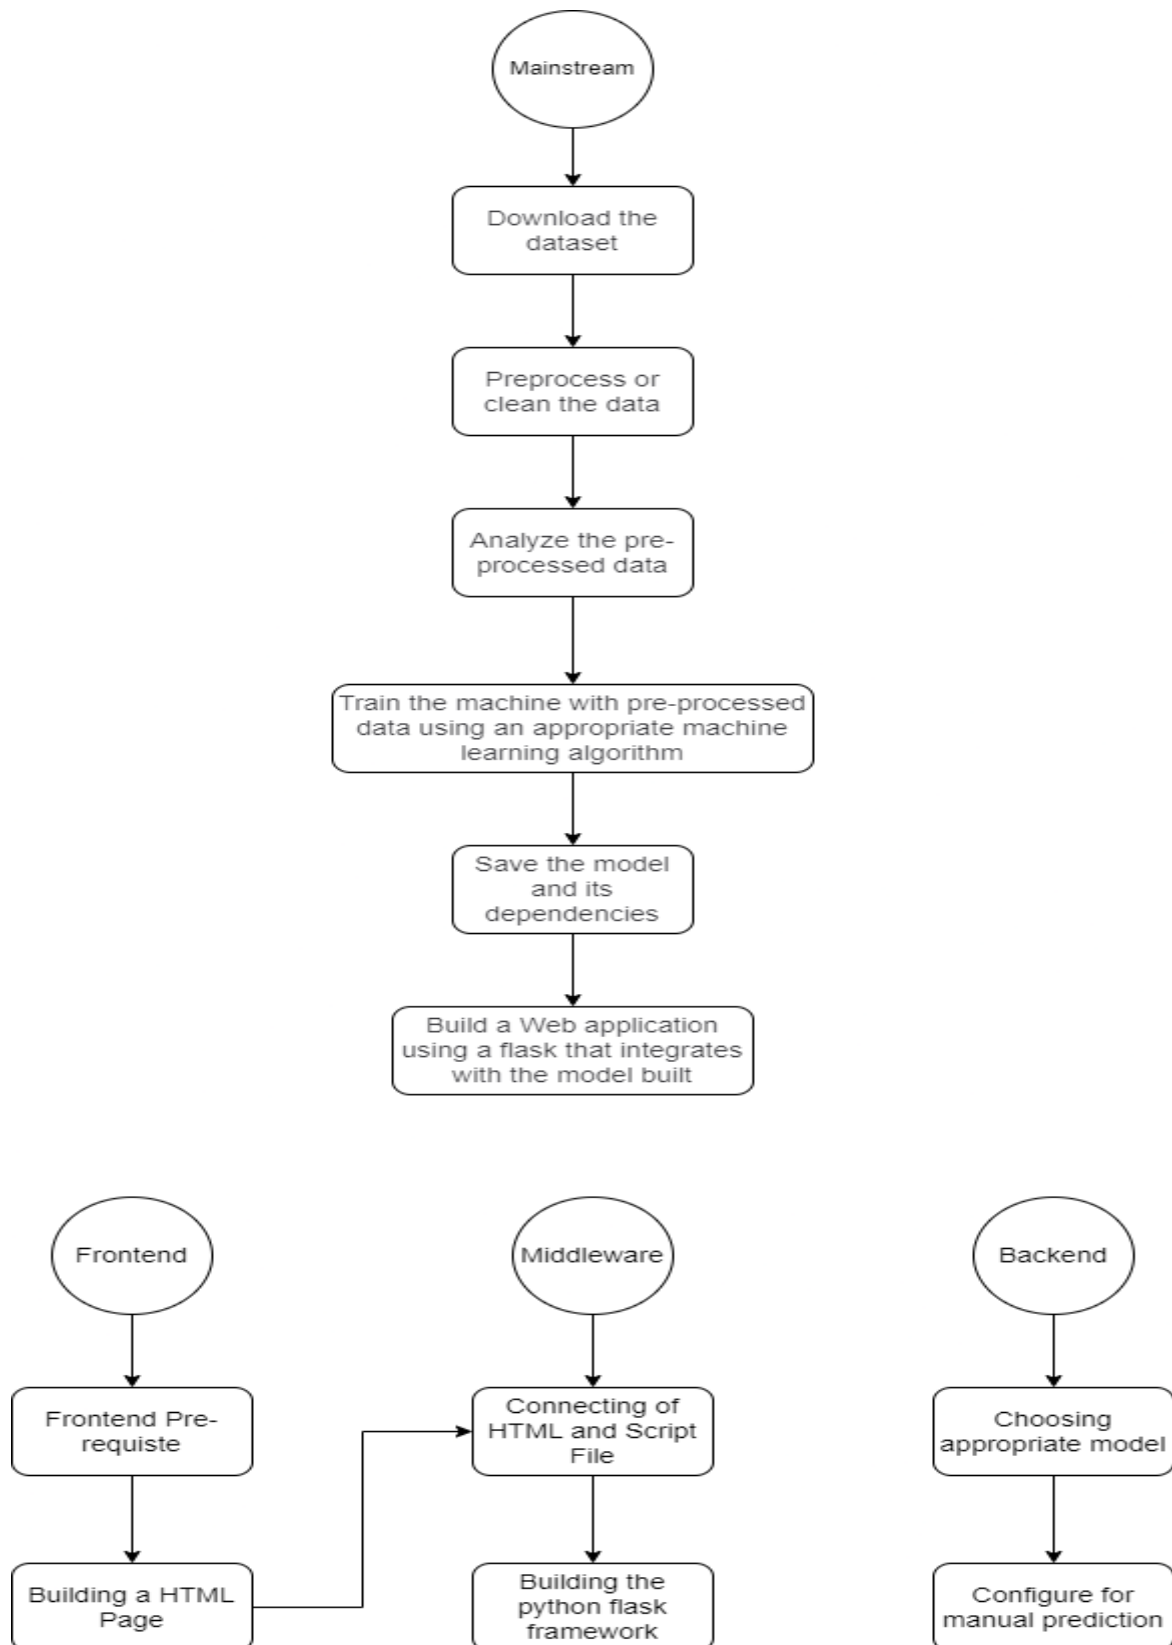

4.IBM Cloud:

It contracts the cloud jobs such as registration in IBM cloud account and more.
